

March 13, 2020

The health and safety of our members, participants, staff, and families is our highest priority. Our goal is to remain a trusted community resource while doing everything we can to protect public health.

There have been many questions about our youth sports programming at the YMCA.

Our community is still in a low risk area with no cases reported in our local area. At this point we are following the guidelines as established by New York State as it pertains to mass gathering numbers.

Our numbers with indoor soccer are lower than that of our basketball programming and we will continue with the programming with slight modifications at this time:

Saturday Games:

- All teams & parents are required to meet with their team/coaches ten minutes prior to their game on Gym Court 1.
- Once the game on Court 3 finishes all players and parents are required to leave the facility.
- Once Court 3 is cleared the teams on Court 1 will now relocate to Court 3 for their game.
- This will repeat throughout the day.

We encourage individual and family "Self-Care" within the Y at this time which includes:

- Cover: cough into the crook of your elbow or into a tissue that is immediately thrown away.
- Clean: Frequently wash your hands with warm water and soap for 20 seconds about the time it takes to sing Happy Birthday twice.
- Contain: Stay home when you are sick or your child is sick until you have been free of fever for 24 hours.
- Care: We encourage you to take the initiative to choose to participate in Y programs at this while choosing to care for your individual well-being at this time.

If you any questions at this time please feel free to contact Tom Revior or Jamey Mullen
